Having practiced for nearly two decades, Dr. Richard Francis specializes in spinal surgery with particular interest in the revision and reconstruction of failed spines and scoliosis correction. As a board certified surgeon, Dr. Francis has extensive experience in cervical, thoracic and lumbar reconstruction and serves as a leader in performing disc replacement with state-of-the-art techniques.

Committed to creating "a total experience based on excellence in every facet of care," Dr. Francis and his helpful staff aspire to develop long-term relationships with each of their patients by ensuring a "safe and rewarding experience" for them throughout every step of their treatment and recovery.

Knowing that he wanted to pursue a career in medicine from an early age, Dr. Francis followed in the footsteps of his role models that were doctors and is now an active member of the medical community. A member of the American Medical Association, Dr. Francis is also involved with the Texas Medical Association, North American Spine Society and the Royal College of Surgeons of Edinburgh.

Focus: Spinal surgery

Education: University of The West Indies, M.D.; The Royal College of Surgeons of Edinburgh and Baylor College of Medicine, Formal training
